## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments filed 10/17/03 have been fully considered but they are not persuasive.

The applicant argues that the prior art does not teach determining the speed variable describing the speed of the at least one driven wheel as a function of the variables describing the respective wheel speed of the remaining driven wheels, and as a function of the output rpm variable describing the transmission output rpm. The examiner disagrees. See column 3, lines 15-23. Therefore, this rejection is repeated and made final.

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 13, 18, 23, 28, 33 and 38 are rejected under 35 U.S.C. 102(b) as being anticipated by Zeller et al (6,073,740)

As per claims 13, 18, 23, 28, and 33, Zeller discloses:

- determining variables describing respective wheel speeds of remaining driven wheels of the motor vehicle (abstract);
- determining an output rpm variable describing a transmission output rpm of a transmission of the motor vehicle (abstract); and

Art Unit: 3661

- determining the speed variable describing the speed of the at least one driven wheel as a function of the variables describing the respective wheel speed of the remaining driven wheels, and as a function of the output rpm variable describing the transmission output rpm (columns 3 and 4).

As per claim 38, it is inherent to use a memory device to store data that can be use in the future.

***Allowable Subject Matter***

3. Claims 14-17, 19-22, 24-27, 29-32, 34-37 and 39-52 are allowed.

***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
